Description

Below you should enter your database connection details. If you're not sure about these, contact your host.

Database Name	wordpress	The name of the database you want to use with WordPress.
Username	username	Your database username.
Password	password	Your database password.
Database Host	localhost	You should be able to get this info from your web host, if localhost doesn't work.
Table Prefix	wp_	If you want to run multiple WordPress installations in a single database, change this.

Així és el que et sortirà quan intentis instal·lar WordPress. Et demanarà el nom que vols que tingui el teu web, el teu nom d'usuari, la contrasenya, el Database Host i, per últim, el Table Prefix. Després que posis tot així, podràs accedir al teu WordPress.
